

Mrs. Cleondis' Weekly News

August 9th-
August 12th

Weekly Skill: Addition

Common Core Standard: Represent and solve problems involving addition and subtraction.

Social Science/Theme: All About ME

This week we will be learning about each other!

I am so excited about our first week of school. This week the children will enjoy chasing their jitters away with yummy Jitter Juice while enjoying the story "First Day Jitters." We will create a class graph and find out who likes Jitter Juice and who does not like Jitter Juice.

We will read "Have You Filled a Bucket" and connect the story to earning fuzzies and doing things from the heart. Fuzzies will be earned and traded in for reward tickets or treasure box treats.

Thanks for all the items purchased from our class wish list! You have truly made us SMILE! A special thanks for your support and help toward making the start of school AWESOME!

My students and parents are the BEST!
