

4th grade Remote Learning Classroom Newsletter

August 17th-August 21, 2020

Spelling Words

No spelling words this week. 😊 We will start soon.

Learning Objectives

Math: This week in math, we will introduce students to math review problems using the "Cubes". We will still use Schoology to model the multiple ways students can submit their work.

Social Studies: We will get acquainted with our great state with engaging Alabama History lessons.

ELA/Reading: This week in reading, we will venture into learning about story elements using fairy tales.

I cannot thank you all enough for how you have hung in here with me this week. Teamwork makes the dreamwork!

Note from the Ms. Bryant

Please be sure to read each night. 😊

Be sure to study your math fact fluency. Multiplication is very important in fourth grade and is used almost daily in math.

Also, please have your child check Schoology daily.

Upcoming Events

Wednesday, August 26th Virtual Curriculum Night
6:00-7:00pm

Monday, September 7th LABOR DAY - NO SCHOOL
