

CHAMPIONS FUN FACTS DID YOU KNOW?

MAC (Making a Champion) Buddies

MAC Buddies is Richland's student advocacy program where each student is paired with an adult (Richland faculty member) designed to make sure that each of our students is known by an adult outside their classroom teacher. Students meet with their MAC Buddy once a month to discuss grades, plays games, and to just get to know each other.

I/E or Intervention Enrichment

The Intervention period is vital to meeting students' needs and is structured to support identified students with targeted and specific support and instruction. Grade level teams work hard to determine placement of students for this period by using a systematic method. Students are monitored frequently to ensure their return to the core program in a timely manner. Enrichment occurs during the same time period as Intervention. All students have access to an Enrichment period and receive instruction and opportunities to participate in enriching activities; some of these, in the past, have included art, music, and computer.

My School Bucks

MySchoolBucks provides parents a single place to organize school related fees and purchases. Auburn City Schools can easily collect and manage payments, while parents have the convenience and flexibility of one account to securely pay their student fees with a credit/debit card.

Dad's League

Dad's League meetings are held twice a semester and are intended to give fathers an opportunity to be involved with our students in the school setting.

School Visitor Sign-in (Raptor)

Raptor Technologies is a visitor management system that has replaced our previous method of signing guests in and is employed by more than 18,000 K-12 school systems across the country. All visitors to the school will have their government identification (driver's license) scanned and instantly checked against the NATIONWIDE sexual offender database. Raptor Technologies allows us to better protect our students, staff and guests while making Richland Elementary School more safe and secure.
