

## Nature Hunt with Organic Shapes

This week let's get outside and look at what is in our yard. Art isn't just in a museum or something you create - it's all around you! Walk around outside your home looking closely at what is around you- nature! As you look around, collect 6-8 of different things you can find to pick up and sort them out in piles. **DO NOT PICK** your family's flowers or neighbors without permission!

I found tons of little sticks, sweetgum balls, oak leaves, moss, green leaves from a bush, little pebbles and a wilting red rose on our rose bush. I placed them on a cement table we made so it's kind of busy in the background- oops.

First, arrange the items you found in a **mandala or circular design**. Remember that we studied about several different countries at school which had some neat mandala's as a part of their culture!

Next, try taking these items and create a **FACE!**

Mr. Red Lips

Grinch like face

Groovy Man

Mr. Crown of Laurels

Well, you see I had fun today- hope you do too! Send back pictures of your creations - Mrs. HAMES
