Other Important Skills to Practice:
<p><b>Upcoming 4<sup>th</sup> Graders:</b> Identifying place value; Adding and subtracting larger numbers; Rounding to the nearest 10 or 100</p> <p><b>Upcoming 5<sup>th</sup> Graders:</b> Place value from millions to hundredths; Rounding numbers; Multiplying multi-digit numbers; Time and money</p>

**What is math fact fluency?** Math fact fluency is the ability to recall the answer to math facts (0-12) automatically and without hesitation.

**How can I practice math facts?** There are many games you can play to improve fact fluency (google “games to practice math facts.”) Flash cards are still a great way to practice math facts. The site <http://www.mathfactcafe.com> and [www.xtramath.org](http://www.xtramath.org) and many apps are available for practice. Investing a few minutes each day will pay off in mastering basic math facts.
