Other Important Skills to Practice:
Upcoming 4th Graders: Identifying place value; Adding and subtracting larger numbers; Rounding to the nearest 10 or 100
Upcoming 5th Graders: Place value from millions to hundredths; Rounding numbers; Multiplying multi-digit numbers; Time and money

What is math fact fluency? Math fact fluency is the ability to recall the answer to math facts (0-10) automatically.

How can I practice math facts? There are many games you can play to improve fact fluency (google “games to practice math facts.”) Flash cards are still a great way to practice math facts. The site <http://www.mathfactcafe.com> and www.xtramath.org and many apps are available for practice. Investing a few minutes each day will pay off in mastering basic math facts.
