

## Grants of Excellence Program Celebrating Learning In Auburn City Schools

### DESCRIPTION

Ten grants will each be awarded \$2000 and named Grants of Excellence for the 2022-2023 school year. Grants winners will be selected through a competitive scoring process.

### APPLICATION

The complete application consists of an information page and a grant details page. Only these two pages should be submitted. Grants with more than these two pages will be disqualified.

The applications must be typed using a font no smaller than 10 on the two-page application documents provided.

Do not identify the identity of grant writers or the school in the application. Grade levels or content areas impacted may be listed. Proposals with the name of grant writers or school on the Grant Details page will be disqualified.

No more than two names may appear as writers of a grant. No one may submit more than one grant, including co-writers of grants.

Any employee in Auburn City Schools is eligible to submit a grant application.

Grant materials may follow a grant recipient to another school in Auburn City Schools if the teacher transfers. However, if a grant recipient leaves the school system, the grant materials remain property of Auburn City Schools and should remain at the school.

The deadline for submission is November 10, 2022. Instructions for submission can be found on the Application Information Page. Grant monies will be released in January 2023.

### GRANT DETAILS PAGE

Describe the project in narrative form. Tell the story of how the grant monies will be used to impact students or learning. Also, provide a budget for \$2000, including the source of purchases, description of purchases, and cost of purchases.

### SCORING RUBRIC

**Excellent:** Proposed project tells a story with with strong evidence of careful planning and thought along with excellent potential for student learning. The budget clearly shows how the grant monies will be spent.

**Good:** Proposed project is general and a good project that can be understood with good potential for student learning. The budget shows how grant monies will be spent.

**Average:** Proposed project is an average project with average potential for student learning. There is a budget for spending grant monies, but lacks one or more elements.

**Poor:** Proposed project does not clearly describe project and/or there is poor potential for student learning. The budget is not clear or missing descriptors.
