Office 334-742-2112

Business Cell 334-707-8664

Email: [amanda.caudill@eamhc.org](mailto:amanda.caudill@eamhc.org)

EAMHC has a contractual agreement to provide school based individual, family, and group therapy to Auburn City Schools students as identified by Auburn City Schools administration.

If the school your child attends feels your child may be in need of therapy services they will contact you (the parent/guardian). If you are in agreement for these services, the school administration will complete a referral form and obtain a release of information. This referral form will be sent to Family and Children's Services. The therapist who serves your child's school will contact you to discuss services and the particular needs of your child. Parent/Guardian participation is strongly encouraged.
